

# 51° FOV Lens

## KEY FEATURES:

- / 51° FIELD OF VIEW
- / DISTORTION-FREE VISUALS
- / OPTIMIZED LIGHT TRANSMISSION
- / RUGGED DESIGN
- / QUICK MOUNTING
- / INTEGRATION WITH OE-14, OE-BNVS 31, AND PVS-14 EQUIVALENTS.

The 51° FOV optics deliver expanded peripheral vision, minimizing blind spots and enhancing situational awareness for faster, more effective decision-making in dynamic environments.

Designed for seamless integration with OE-14 and OE-BNVS 31 systems, these rugged, high-clarity lenses provide reliable performance in any setting, ensuring operators stay focused and in control.
